9th September 2014

To whom it may concern:

We employed Stehr brothers, builders, to re-clad and make alterations to our leaky home at the above address in 2011.

We had to move out of our home for six months once the building work started, and spent a lot of time away from Auckland. They, along with Mark Brown, the architectural draftsman of Solutions Architecture, Pakuranga held regular meetings with us, at all times placing our best interests at the forefront.

We found P J Morrow, who oversaw the project, and his team, to be very professional, courteous and excellent to deal with.

We are delighted with the home they have built for us.

We would thoroughly recommend this firm to undertake any similar project.

John and Judith Betteridge
